

WQCD Topics for Discussion at Special Chatfield TRC Meetings

Special TRC Meeting from 1:00 -3:30 p.m. at the Plum Creek Authority Office; Regular Chatfield Authority TRC meeting follows special review meetings from 3:30-4:30 p.m. or as scheduled by TRC Chair.

Month	Topic(s)	Potential Outcomes
Sep 13, 07	Methods Review Technical comparison of standards, targets, and translators in existing control regulations, with consideration of transparency and consistency	Provide information; discuss technical basis.
Oct 11, 07	Appropriateness of existing chlorophyll target: magnitude, frequency, duration (averaging period) considerations	Summary current views on suitability and structure of chlorophyll standard; discuss relative merits of chlorophyll and phosphorus standards
Nov 8, 07	Evaluation and discussion of concentration translator	Discuss WQCD proposal
Dec 13, 07	Assessment of water budget and appropriate concentrations for each flow source as precursor to phosphorus load calculations	Develop common set of monthly flows partitioned by source; discuss
Jan 10, 08	Review and discussion of phosphorus load estimates	Develop common set of monthly loads partitioned by source; discuss
Feb 14, 08	Evaluation and discussion of load translator	Discuss WQCD proposal
Mar 13, 08	Develop hydrologic scenario appropriate for TMAL	Discuss WQCD proposal
Apr 10, 08 May 8, 08	Assemble technical components; discuss chlorophyll-phosphorus-load linkages	Provide substance of WQCD proposal to WQCC; discuss
Jun 12, 08	WQCD to finalize proposal	Circulate for comment
Jul 10, 08	Notice due	Notice published
Nov 10 or 11, 08	WQCC RMH	Decision on proposal
