

MEMORANDUM

Date: May 28, 2003
To: *Chatfield Watershed Authority*
From: Russell N. Clayshulte, Manager
Re: **Chatfield Watershed Authority Wastewater Reuse Approval Policy**

The Chatfield Watershed Authority adopts the following reuse approval policy on May 28, 2003 to help expedite the review of wastewater reuse projects:

The Chatfield Watershed Authority strongly supports the beneficial use of reclaimed water for irrigation applications within the Chatfield Watershed. The Authority authorizes the Authority Manager to approve site applications and reuse permits that are consistent with the Chatfield Reservoir Control Regulation on behalf of the Authority without further Board action. The manager will inform the Board of all actions taken on its behalf at the next regularly scheduled Authority meeting.
